MEDIA ADVISORY

City to Host Residential Development Workshop

Thursday, March 23, 2006

FALLS CHURCH, VA. – The City of Falls Church will host a Residential Development Workshop on Thursday, March 23, 2006 at 7:30 p.m. in the Senior Center (located in the Falls Church City Community Center at 223 Little Falls St., Falls Church, Va. 22046). The Workshop will serve as a way for members of the community to learn about the City's building permit and inspection process for new residential development.

City staff will walk through a hypothetical residential building project to demonstrate how building permits are reviewed and processed. The case study will highlight City codes with respect to zoning, erosion and sediment control, grading, water quality, tree protection, and building codes. Staff will be set up at different stations to describe their stage in the process and answer questions.

The workshop is intended to provide information about the building permit process and answer questions raised. The information discussed at the workshop will provide a helpful background for future policy discussions.

For more information, please call 703-248-5040 (TTY 711).
